

# Alphabet Pancakes

## Ingredients

The ingredients found in the Basic Pancake Batter Recipe. Plus...  
Non-stick cooking spray

## Materials

The materials in the Basic Pancake Batter Recipe. Plus...  
A rubber spatula  
A plastic squeeze bottle with removable top. Tip should be cut to 2-3 mm.  
A spatula for flipping

1. Make the Basic Pancake Batter Recipe.
  2. Pour the pancake batter into the squeeze bottle using the rubber spatula.
  3. Spray your medium heated surface/griddle (350 for electric griddles) with non-stick cooking spray.
  4. Squirt the bottled batter onto the heated cooking surface making desired letters. (The pancakes look better if you squeeze the letter backwards so when it's flipped it will be the flat side presented.)
  5. When small bubbles are forming (after about 30-45 seconds) carefully flip your letters over with the spatula.
  6. Cook the second side until done (about 20 seconds) and remove from heat.
  7. See how many words you can spell using the letters you made! Enjoy eating them too.
- Makes several letters (between 20-40)
